inspired by forces of nature

Shift is a unique design inspired by seismic activity. The lines radiating towards the edge of the dish emulate the ripples caused by shifting tectonic plates. This groundbreaking collection will bring new energy to your foodservice presentation.

subtle design, elevated presentations

The timeless subtle design of the Plateau collection seamlessly marries form and function, reimagining the concept of a chef's blank canvas. A subtle relief in the center allows chefs to compose against a backdrop of gentle light and shadow. Elegant in its simplicity, this collection elevates the flat plate above the table's surface for ease of transport without compromising presentation.

(emphasize) food presentations

Bringing the chef's presentation to sharp focus is what first inspired the Parentheses collection. Smooth, clean lines of each piece bring the emphasis to the center of the plate. Just as parentheses surround an amplified word within a sentence, this collection draws attention to where it should be – your food.
